Cortical Gray Matter Loss, Augmented Vulnerability to Speech-on-Speech Masking, and Delusion in People with Schizophrenia

(Running Title: Delusion and Informational Masking of Speech)

Chao Wu^a, Yingjun Zheng^b, Juanhua Li^b, Shenglin She^b, Hongjun Peng^b, Liang Li^{c,d}

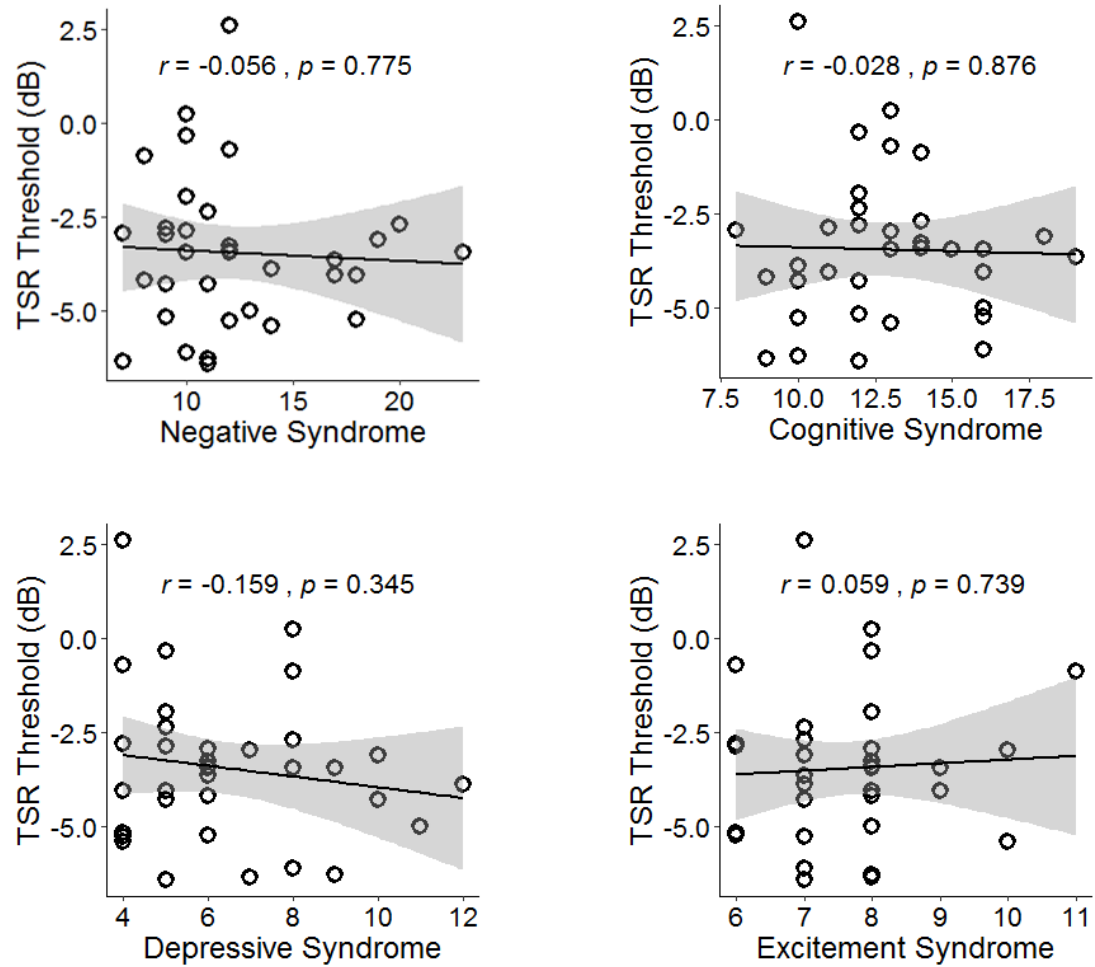

Figure S1. There were no significant correlations between the TSR threshold and the negative syndrome, the cognitive syndrome, the depressive/emotion syndrome, and the excitement syndrome of the CMV-PANSS.

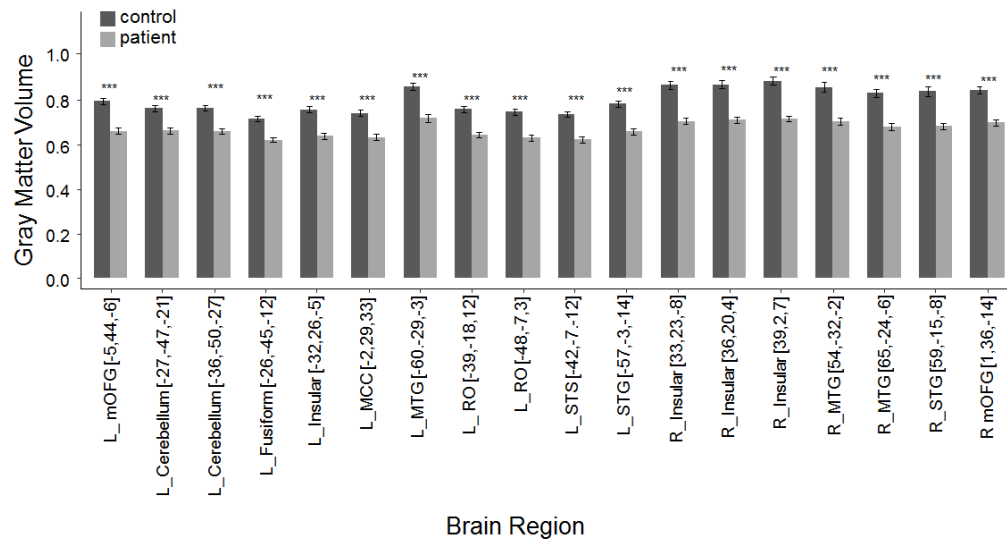

Figure S2. Bar plot for group comparison in gray matter volume. MCC, mid-cingulate cortex; mOFG, medial orbital frontal gyrus; RO, rolandic operculum; STG, superior temporal gyrus; STS, superior temporal sulcus; MTG, middle temporal gyrus.
