b)

**Suppl. figure 2:** Linear regression of grain yield (GY) under drought stress conditions in the presence of mycorrhizae (DS myco +) against grain yield (GY) under drought stress conditions in the absence of mycorrhizae (DS myco -) for the 94 genotypes. Genotypes were assigned to groups according to the a) year of release and b) structure grouping. K1: Structure group 1, K2: Structure group 2 (For details please see Lehnert *et al.* 2017).
