

Supplementary Table 1

RESUMEQ NETWORK			
Thesaurus of the causes of equine mortality			
Age categories: Fetus, stillborn,]0 - 24h],]24h - 1 month]			
fetus	infectious	macroscopic placentitis	bacterial
			mycotic
			bacterial and mycotic
			unidentified pathogen
			no search for pathogen
		absence of macroscopic placentitis	bacterial
			unidentified pathogen
			no search for pathogen
			viral (not herpes)
		Rhinopneumonitis	EHV1
			EHV4
		Leptospirosis	
		absence of placenta	bacterial
			unidentified pathogen
			no search for pathogen
			viral (not herpes)

	non infectious	umbilical cord twist	
		hydrops of fetal membranes	
		placental insufficiency	
		premature detachment of the placenta	
		twin pregnancy	
		pregnancy in the placental body	
		strangulation by the umbilical cord	
		congenital abnormalities	
		traumatic	
		other	
		abnormal umbilical cord	
	unknown etiology		

stillborn	infectious	macroscopic placentitis	bacterial
]0 - 24h]			mycotic
			bacterial and mycotic
			unidentified pathogen
			no search for pathogen
		absence of macroscopic placentitis	bacterial
			viral (not herpes)
			unidentified pathogen
			no search for pathogen
		Rhinopneumonitis	EHV1
			EHV4
		Leptospirosis	
		absence of placenta	bacterial
			unidentified pathogen
			no search for pathogen
			viral (not herpes)

	non infectious	umbilical cord twist	
		hydrops of fetal membranes	
		placental insufficiency	
		premature detachment of the placenta	
		twin pregnancy	
		pregnancy in the placental body	
		strangulation by the umbilical cord	
		congenital abnormality	
		anoxia/asphyxia	
		premature birth/ dismaturity	
		premature rupture of the umbilical cord (hemorrhage)	
		fracture of the skull	
		fracture of the ribs (hemorrhage)	
		other	
		tamponade	
		dystocia	
	unknown etiology		

]24h- 1 week]	infectious	septicemia	bacterial
]1 week- 1 month]			viral (not herpes)
			unidentified pathogen
			no search for pathogen
		Rhinopneumonitis	EHV1
			EHV4
		bronchopneumonia-pneumonia	no search for pathogen
			unidentified pathogen
			bacterial
			viral (not herpes)

		enteritis	bacterial
			viral
			no search for pathogen
			unidentified pathogen
		enterocolitis	bacterial
			viral
			unidentified pathogen
			no search for pathogen
		typhlocolitis	bacterial
			viral
			unidentified pathogen
			no search for pathogen
		colitis	bacterial
			viral
			unidentified pathogen
			no search for pathogen
		meningitis	bacterial
			viral
			unidentified pathogen
			no search for pathogen
		osteomyelitis	bacterial
			unidentified pathogen
			no search for pathogen
		polyarthrits	bacterial
			unidentified pathogen
			no search for pathogen
		myositis	bacterial
			unidentified pathogen
			no search for pathogen
		Tyzzar's disease	

	non infectious	anoxia/asphyxia	
		premature / immaturity	
		isoerythrolysis in neonatal foal	
		congenital abnormality	
		perforating ulcer	
		tamponade	
		hemorrhage	
		gastrocnemius muscle rupture	
		anaphylatic shock	
		fracture of the skull	
		fracture of the ribs (hemorrhage)	
		other	
		acute pulmonary edema	
		nutritional myopathy	
		rupture of the urinary bladder	
		polytraumatism	
		intussusception of the small intestine	
	unknown etiology
