

Supplementary Figure 1

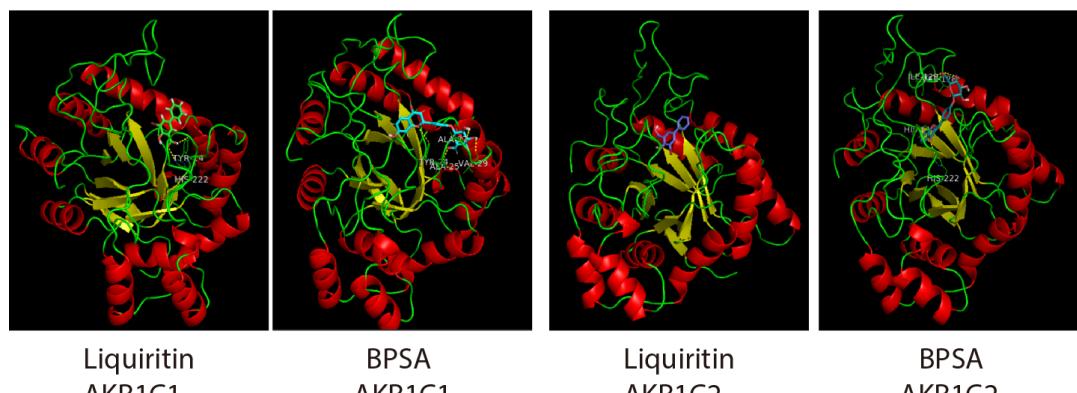

Supplementary Figure 1. Purification and kinetic constants of recombinant AKR1C isoforms. **(A)** SDS-PAGE results of recombinant AKR1C isoforms. **(B)** K_M and k_{cat} of recombinant AKR1C isoforms.

Supplementary Figure 2

Supplementary Figure 2. Dose-dependent inhibition of AKR1C isoforms by liquiritin and BPSA.

Supplementary Figure 3

Supplementary Figure 3. Docking of liquiritin or BPSA into the active site of AKR1C isoform proteins.

Supplementary Table 1

| | Compound | slope | nmol/min/mg | ratio | % inhibition |
|----|----------------------------------|----------|-------------|--------|--------------|
| | CON | 0.0122 | 192.295568 | 1 | 0 |
| | BPSA | 0.0005 | 7.881 | 0.041 | 95.9 |
