

A**B**

Supplementary Figure 7 Immunolocalization of Er-PDFR in hemocytes of *E. rowelli*. **(A)** Transmitted light and **(B)** fluorescence light micrographs of the same region. Er-PDFR (cyan) and DNA (grey). **(A)** Blue granulated pigments occur in a subset of hemocytes in heart lumen. **(B)** PDFR immunoreactivity in membrane of same hemocytes. he, hemocyte. Scale bars: 5 μm .
