

Supplementary Figure 7. Numbers of tillers and branches at 50% recommended dose of fertilizer (RDF). Number of tillers and branches in finger millet (dark shaded bars) and pigeon pea (light shaded bars) respectively at 50% RDF at Bangalore and Kolli Hills for the two cropping seasons 2014-15 and 2015-16. Each error bar indicates +1 standard deviation of the mean. Bars not sharing the same letters are significantly different at $p < 0.05$.
