

Supplemental Figure 1: RT-PCR confirmation of the absence of *oprB* and *mapA* transcript in *A. baumannii* HUMC1 $\Delta oprB$ and HUMC1 $\Delta mapA$ in comparison to the WT. Primers used for the PCR are same that were used for the Q-PCR (1221/22 for *oprB* WT 105 bp; 1318/19 for *mapA* WT 120 bp).
