

"Romania's sold Roma children"

A criminal gang from Țândărei trafficked thousands of Roma children in the West, forcing them to beg and steal.

DIICOT did not bring any direct evidence "- explanation of the acquittal of the defendants in the Țândărei Case

The 25 defendants in the Țândărei case, accused by DIICOT prosecutors of child trafficking and money laundering, were finally acquitted, at the end of 2019, by the judges of the Târgu Mureș Court of Appeal, because the investigators did not bring any evidence to prove the charges brought.

False kidnapping call to Țândărei. A minor set the police on fire

As a result of the notification, a complex team was set up, coordinated by the Inspectorate's management, consisting of specialists from the Criminal Investigation Service, the Țândărei City Police and the Ialomița Information Analysis Office. Police officers immediately started activities specific to the search for people, after receiving the emergency call, following the verifications carried out, a 13-year-old minor from the city of Țândărei was identified, on whom the mobile phone from which the call was made was found. Following the discussions with the minor, it emerged that she, in the spirit of a joke, would have called the emergency service to falsely report that she had been abducted. At the building where the minor was identified was also her father, a 48-year-old man, who was sanctioned for non-supervision of minors.

The nurse from Țândărei, confirmed with COVID-19, died

The local authorities in Țândărei demand mass testing of the population

The Local Committee for Emergency Situations from Țândărei requested the Public Health Directorate from Ialomița to carry out a mass testing campaign of the local citizens. The latest data show that in the city of Țândărei there is a decrease in the number of cases of COVID-19 infections.
