

Supplementary Material

Supplementary Figure 1. PRISMA (Preferred Reporting Items for Systematic Reviews and Meta-Analyses; Moher *et al.* 2009) flow chart presenting the selection of studies for the meta-analysis of associations between climate-related environmental variables and aquatic insects in Northwest Africa.

Supplementary Table 1. Publications used in analyses with number of sites, and mean values for number of families (Fam), altitude (Alt, m), water temperature (Temp, [°C]), EC ([μ S/cm]), river size (Size, [m^2]), Global Aridity Index (GAI), degree of regulation (Reg [%]), cropland extent (Crop, [%]), urban extent (Urb, [%]) and number of samplings taken per site (Samp). In the case of “Bonada”, the data was obtained from MacroMED (Blanco-Garrido et al., 2013).

Publication	Sites	Fam	Alt	Temp	EC	Size	GAI	Reg	Crop	Urb	Samp

Supplementary Table 2. Biological traits used in the study and their different categories, based on Tachet et al. (2000).

Variable	Trait	Category
1	Size	a: ≤ .25 cm; b: > .25-.5 cm; c: > .5-1 cm; d: > 1-2 cm; e: > 2-4 cm; f: > 4-8 cm
2	Life cycle duration	a: ≤ 1 year; b: > 1 year
3	Potential number of cycles / year	a: < 1; b: 1, c: > 1
4	Aquatic stages	a: egg; b: larva; c: nymph; d: adult
5	Reproduction	a: ovoviparity; b: isolated eggs, free; c: isolated eggs, cemented; d: clutches, cemented or fixed; e: clutches, free; f: clutches, in vegetation; g: clutches, terrestrial
6	Dispersal	a: aquatic passive; b: aquatic active; c: aerial passive; d: aerial active
7	Resistance form	a: eggs, statoblasts; b: cocoons; c: housings against desiccation; d: diapause or dormancy; e: none
8	Respiration	a: tegument; b: gill; c: plastron; d: spiracle; e: hydrostatic vesicle
9	Locomotion and substrate	a: flier; b: surface swimmer; c: full water swimmer; d: crawler; e: burrower; f: interstitial; g: temporarily attached; h: permanently attached
10	Food	a: microorganisms; b: detritus (< 1mm); c: dead plant (\geq 1mm); d: living microphytes; e: living macrophytes; f: dead animal (\geq 1mm); g: living microinvertebrates; h: living macroinvertebrates; i: vertebrates
11	Feeding habits	b: deposit feeder; c: shredder; d: scraper; e: filter-feeder; f: piercer; g: predator; h: parasite
